Bring your shuttles, fiber, crochet hooks, scissors and any other tools for tatting that you use. Let Jane know if you are right or left handed prior to the class. If someone would like to learn basic tatting, please email me prior to the class and I will try to fit you in. [stujane82@wildblue.net](mailto:stujane82@wildblue.net)

**Beginning Bobbin Lace – Muir Dean**

limit 6 students - Come learn the basics of bobbin lace. I will have a pillow with wound bobbins for you to make a small tape lace. There is no cost to the student. The pillow, bobbins, pins, etc. stays with me, but the lace and a handout of the stitches travels home with you.

**Torchon Alterations – Kay Daugherty**

We will be reviewing some patterns in Robin Lewis-Wild's 101 Torchon Lace Patterns to see how she revamped some patterns within her book. We will also look at possible substitutes of one type of spider or rose ground for another. Class participants are encouraged to bring Robin's book with them. If you don't own a copy, you are encouraged to borrow one to bring to class so that it will be easier to see the examples.

## **Program:**

### **The Secret Revealed Prime Movers and Authors of the 20th Century Lace Revival by Holly Van Sciver**

Through most of the 20th century there began a slow transition from lace being made for sale, to lace being made for pure enjoyment as a hobby. This is the tale of how lacemaking completed this transition as hobbyist craft through the publication of books on lace technique starting in the early 1970's.

### **Door Prizes:**

Golden Bobbins has selected a limited number of door prizes for our 25<sup>th</sup> anniversary celebration on May 3. Registrants will be given a ticket for the number of door prizes we will have and may choose to put them all into one container for a chance to win one prize or place in several containers to try for any or all.
